## ABOUT ME

---

As a self-taught frontend developer, I design user-focused, aesthetic, and performance-oriented interfaces using React, Next.js, and Tailwind CSS. I have gained strong practical experience through freelance projects and personal work. In the short term, I aim to enhance my technical skills in a professional team, and in the long term, I target expertise in full-stack development.

## PROJECTS

---

### Zynote – AI-Supported Note Application

[Live](#) | [GitHub](#) - React, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, HuggingFace API

- Integrated a note summarization feature using HuggingFace API to streamline content management for users.
- Developed a comprehensive application with authentication, note sorting/filtering, and note-taking with photos and drawings.
- Provided a smooth user experience with a mobile-friendly, clean interface.

### Sultan Düğün Salonu & Ekip Boya – Corporate Promotional Websites

[Live](#) | [GitHub](#) & [Live](#) | [GitHub](#) | React, Tailwind CSS, Vite

- Designed SEO-friendly, mobile-responsive promotional websites tailored to client needs.
- Enhanced user interaction with contact forms, Google Maps integration, and animations.
- Achieved high performance with Google PageSpeed scores (Mobile: 93, Desktop: 99).

### Portfolio – Personal Website

[Live](#) | [GitHub](#) - React, Tailwind CSS, Framer Motion

- By applying UI/UX principles, I created a portfolio that showcases both my design skills and frontend expertise.
- Gained experience in both presentation and communication by developing my own portfolio.

### Kuf – E-commerce Mock Application

[Live](#) | [GitHub](#) - React, Redux Toolkit, Firebase, Cloudinary, Tailwind CSS

- Mastered state management with Redux Toolkit to ensure seamless product listing and cart functionalities.
- Integrated Firebase for authentication, admin panel, and data operations to provide a secure user experience.
